LEADing lights

Transforming learning for all.

OneNote

is your digital notebook. Use it to gather all of your notes, in any medium, and share them with others. OneNote Class Notebook allows you to take your teaching online with real-time engagement and interaction.

Forms

allows teachers and students to quickly create custom quizzes, surveys, questionnaires, registrations and more. When you create a quiz or form, you can invite others to respond using any web browser or mobile device. As results are submitted, you can use built-in analytics to evaluate responses.

Planner

is a project management tool that can connect with all your contacts. It displays tasks and projects clearly so you can keep track of who is doing what, when and where.

OneDrive

is your 1 terrabyte cloud-based storage. You can access your files securely from any device - all you need is an internet connection and you can work anywhere.

Outlook

is your online email, connected to your calendar and contacts. It includes a terrific range of add-ins that allow you to do more than ever before.

Stream

is CEWA's internal YouTube service. Stream allows you to watch, create and discuss video content in a safe environment with no ads.

Yammer

is our social network that helps you connect with colleagues and share information across the CEWA system. No more email tennis. Get on to Yammer to join the conversation.

Claned

is the place CEWA staff go to create and explore engaging collaborative learning courses. Designed with a beautiful interface and intelligent analytics, Curiosity Academy recommends courses relevant to you, and lets you know about content people loved.

Catholic Education Western Australia is moving to a new online identity that begins with your new CEWA email address.

preferredname.surname@cewa.edu.au

Your new email will give you access to CEWA 365 and the new professional learning portal, Curiosity Academy. Use this guide to understand how new digital tools support the future of teaching and learning in your school.

Sway

is an app that allows teachers and students to create and view interactive class materials, reports, newsletters, and presentations from any device. You don't need expensive software to use Sway - just a browser.
